II. Policy

Huggins Hospital is committed to providing financial assistance to persons who have healthcare needs and are uninsured, underinsured, ineligible for a government program, or otherwise unable to pay, for emergency and medically necessary care based on their individual financial situation. Consistent with its mission to provide high quality healthcare services and to promote wellbeing in the communities we serve. Huggins Hospital strives to ensure that the financial capacity of people who need health care services does not prevent them from seeking or receiving care. A patient can apply for financial assistance before, during, and up to 240 days after the first patient statement is received for the service provided, including after an account has been referred to an outside collection agency.

Huggins Hospital will provide care for emergency medical conditions and medically necessary services to individuals regardless of their ability to pay or eligibility for financial assistance or government assistance and regardless of age, gender, race, social or immigrant status, sexual orientation or religious affiliation.

Accordingly, this written policy:

- Includes eligibility criteria for financial assistance
- Describes the basis for calculating amounts charged to patients eligible for financial assistance under this policy, refer to **Appendix C**.

- Limits the amounts that the hospital will charge for emergency or other medically necessary care provided to individuals eligible for financial assistance to amount generally billed (received by) the hospital for commercially insured or Medicare patients

- Financial assistance is not considered to be a substitute for personal responsibility. Patients are expected to cooperate with Huggins Hospital's procedures for obtaining financial assistance, and to contribute to the cost of their care based on their individual ability to pay.
