Section 2: MISSION & COMMUNITY SERVED

Mission Statement: Huggins Hospital's mission is to empower the fulfillment of life through better health.

Has the Mission Statement been reaffirmed in the past year (*RSA 7:32e-I*)? Yes

Please describe the community served by the health care charitable trust. “Community” may be defined as a geographic service area and/or a population segment.

Service Area (Identify Towns or Region describing the trust’s primary service area):

The population served by Huggins Hospital consists of those towns that have been designated by the New Hampshire Department of Health and Human Services as being located in the Wolfeboro Hospital Service Area. The primary service area includes: Alton, Brookfield, Effingham, Freedom, Ossipee, Tamworth, Tuftonboro, Wakefield and Wolfeboro. Secondary service areas are parts of Barnstead, Gilford, Moultonborough and New Durham. These towns are located in Carroll County, Belknap County and Strafford County.

Service Population (Describe demographic or other characteristics if the trust primarily serves a population other than the general population):

Huggins Hospital serves the general population. The community is rural in nature and has a seasonal population increase from approximately 40,000 full-time residents to about 120,000 residents in the summer tourist season. The area has also seen continuous growth in the senior population throughout the years and that demographic is projected to continue growing.

Section 3: COMMUNITY NEEDS ASSESSMENT

In what year was the last community needs assessment conducted to assist in determining the activities to be included in the community benefit plan?

Please provide a description of the methods used to solicit community input on community needs (attach additional pages if necessary): Huggins Hospital analyzed community health data and conducted a community survey to begin the community needs process. Huggins Hospital also presented the data and analysis to the community during the hospital's Community Health Summit in 2016. The event provided an opportunity for community members and local health and safety agencies to determine significant health needs and goals for improvement. Over sixty individuals from over forty community and healthcare organizations collaborated to conduct a comprehensive CHNA process focused on identifying and defining significant health needs, issues, and concerns of the community. The process centered on gathering and analyzing data as well as receiving input from persons who represented the broad interests of the community and who had special knowledge and expertise in public health. The participants helped provide direction for the Hospital to create a plan to improve the health of the community.
